ALL FOR CIVIC BEAUTY

The National League of Improvement Associations

ASKS FOR A LOCAL BRANCH

It is Desired to Make America the Most Beautiful Country in the World.

The National League of Improvement associations, which has headquarters in Springfield, Ohio, is desirous of having organized in Coshocton a local society to affiliate with the league. The object of the league is to promote and encourage outdoor improvements of all kinds including Arbor day, artistic home planting, cemetery improvement, cleansing and beautifying public buildings, care of vacant lots, cycle paths, county park systems, flower and fruit missions, floral exhibitions, good roads and good streets, and dozens of kindred attractions. The following letter explains the league's desires with reference to Coshocton:

SPRINGFIELD, O., May 8, 1901.

C. B. McCoy,
Coshocton, O.

Dear Sir:

We wish to stir your town somewhat as Dayton, Springfield and many other places in many states have been aroused to an appreciation of the need of bettering civic conditions.

The League is interested in making "America the most beautiful country in the world." Added to that desire you are doubtless interested in tha argument that "it pays."

We hope to have Miss Good spend two days in your city on her way to Pittsburg. Kindly note the "campaign of organization" enclosed. Can not your town take the matter up so that necessary arrangements may be made as quickly as possible.

The enclosed "Prizes Offered" may prove of interest to your readers.

With heartiest belief in mutual advantage to accrue and awaiting your early response, I am

Yours respectfully,
NATIONAL LEAGUE OF IMPROVEMENT ASSOCIATIONS.
E. G. ROTTZAHN, Sec'y.

In her campaign of organization Miss Good usually spends two days in a town, holding separate conferences with editors, florists, officers of women's societies, school teachers, business and professional men, pastors, real estate men, rally of school children and organization of juniors, and meeting of citizens.

By this means a local society is organized and the work of civic improvement goes forward.

Since the object of the league is to make "America the most beautiful country in the world." why not affiliate with it in making "Coshocton the most beautiful city in Ohio." Any persons interested in the work can get full information by addressing the corresponding secretary, D. J. Thomas, rooms 8 and 10, Citizens National Bank Building, Springfield, Ohio.

Do your Children wear Nazareth Waists?

It's an underwaist we recommend because WE KNOW its the best, most practical and satisfactory underwaist made for boys and girls. Knitted for elasticity, for growth, for comfort to growing child.

Taped over shoulder for strength, for supporting skirts or trousers, for resistance to strains.

Buttons—The kind you know are good. Sewed on to stay.

Isn't it a happy combination?

Coolest in summer because it is knitted and can be worn next to the skin.

We have them bleached and unbleached.

Very Respectfully

Ransom D. G. Co

VIEWS ON "WHAT COSHOCTON NEEDS."

We present in this issue another article of the series on "What Coshocton Needs," by leading citizens. Some of the suggestions elicited by this sympossium are very valuable, and all are interesting. The suggestions offered in the appended contribution by Mr. R. B. McDermott, former clerk of courts, are all strictly practical and right to the point.

B. & O. RAILWAY, ELECTRIC LINES, PAVED STREETS, ETC.

Coshocton should have the Baltimore & Ohio railway extended from Millersburg through to Cambridge, thereby giving shippers the benefit of competition between two of the great railway systems of the country, and between competing express companies, besides bringing to Coshocton a large amount of trade from the north and the southeast.

The managers of the B & O. railway undoubtedly intended to construct that road through Coshocton to Cambridge or Zanesville when it was built from Lodi to Millersburg, but were prevented from doing so by the stringency in money matters. Now that the stringency has passed a little effort on our part might enable us to secure the construction of the road.

If we can get the B. & O. railway our board of trade will be able to offer greater inducements to factories to locate here.

If an electric line should be built from Cleveland to Cincinnati it should pass through Coshocton. An electric line running up the Walhonding and Mt Vernon rivers to Mt. Vernon would be beneficial to Coshocton.

Coshocton needs more paved streets, better sidewalks and better schools. This should be an educational center as well as a manufacturing center.

The rural population is on the decline. Only one-fourth of the counties in Ohio have increased in population since 1890. The young men are seeking employment in the cities and those cities offering the best inducements secure the greatest benefit. In order to give employment to more we need more factories and more mines developed. Other cities are hustling and Coshocton should continue to hustle.

Coshocton has more natural advantages than any other city in central Ohio. That fact should be proclaimed from the house tops by all our citizens on all occasions. When our superiority becomes generally known over the state, our capital will seek investment here in the various lines of industry and our population will doubtless again double within the next decade.

R. B. MCDERMOTT.

BAD WRECK ON THE WALHONDING.

A wreck occurred on the T. W. V. & O. railroad near Brink Haven this morning. The train due here at 10 o'clock was wrecked, the passenger coach and the combination car for mail and baggage being badly demolished.

The first information of the wreck received here was the following telegram:

MANSFIELD, O. May 17.

Postmaster,
Coshocton, O.

Postal Clerk McConnell, of the Loudonville and Coshocton line, injured in the wreck. Can you protect run this afternoon with clerk from your office. POE, Chief Clerk.

Postmaster McCoy immediately wired that the run would be protected by the Coshocton postoffice as requested. Clyde L. Wells, the efficient dispatching clerk, will perform the service.

Particulars of the wreck could not be learned until two o'clock when the train arrived here in its crippled form. Frank Darling was one of the passengers on the ill-fated train. He says the escape of the passengers from death was miraculous.

The mixed freight and passenger train had pulled into Brink Haven but had backed up to the west siding to put off some coal cars. The train consisted of some sixteen freight cars, followed by the combination mail and baggage car and the passenger coach on the rear end.

When near the siding an eastbound coal train swung around the curve and punched the mixed train in the rear, badly wrecking the passenger coach and almost demolishing the baggage and mail car, the latter climbing over the first freight car ahead.

Postal Clerk McConnel was at his work when the crash came. His escape from instant death is nothing short of miraculous. The crash and smash was all around him. It required much time and work to extricate him from the debris. He was so stunned by the shock asto render him unconscious for an hour, although his injuries are not thought to be serious.

Frank Darling was the first passenger to see the approaching freight train rounding the curve. He gave the alarm and all but two of the passengers sprang from the car. None of them were injured. Mr. Darling is unhurt except for a scratch received in climbing a barbed wire fence to get away from the impending crash.

ROSCOE COMMENCEMENT.

A Bright Class and Interesting Exescises Thursday Night.

The Odeon Harp orchestra, of this city, furnished music for the occasion.

The annual commencement of the Roscoe high school was held in the Methodist church of that place Thursday evening. The entertainment was complete in every detail and a large audience greeted the class.

The stage was beautifully decorated with palms and house plants. The class colors, green and orange, were hung in streamers throughout the room. Promptly at eight o'clock the class of six members marched down the aisle to the strains of music.

Before the program was begun Prof. Orr explained that some threats had been made that interruptions would be made while certain numbers on the program were being rendered. He warned all with such intent that the law would take its course in that event. No interruptions were made.

The members of the class all acquitted themselves with credit. Their orations were all short and the program did not assume such proportions as to become wearisome to the audience. The program follows:

Music ..... Orchestra
Invocation ..... Rev. E. R. Jones
Oration—The Younger Rises as the Old Doth Fall" .. Clara M. Ridgway
Oration—Blind in the Midst of Beauty ..... Pearl Smith
Music ..... Orchestra
Oration—Invention Dependent Upon Resource ..... Theadore A. Kyser
Oration—If the Shadows Fell Not ..... Mary Alice Gibson
Piano Duet—Il Corricol ..... Misses Miller and Putman
Oration—He'll Shape His Old Course in a Country New. .... Julia House
Song—Class History—Julia House .. Class
Oration—Resistence and Existence ..... Walter W. Bechtol
Class Farewell—Class ..... Clara M. Ridgway
Presentation of Diplomas ..... Prin. T. S. Orr
Music ..... Orchestra
Benediction ..... Rev. C. E. Stockdale

No class address was made but Superintendent T. S. Orr presented the diplomas is a few well chosen words of commendation for the efficient and faithful work done by the class, predicting brilliant careers for them.

EIGHTEEN MONTHS

Is the Time Asked by President Ickes in Which to Build His Road.

Mr. J. M. Ickes, president of the Newark, Zanesville & Coshocton Traction company, was before the Muskingum county commissioners Wednesday, says the *American Tribune*, asking for a franchise in that county. He stated that the company had already completed its franchises in Licking and Coshocton counties, and had consents from a large mrjority of the property owners along the 24 miles of its route in Muskingum county. The road had already been surveyed and located and several representatives of financial interests had examined it and reported favorably. He only asked for eighteen months in which to build the road and hopes to beat that out by nearly six months.

DROPPED TEN DOLLARS

But Miss Georgia McGovern Found It and It Was Returned.

Thursday afternoon Benton Davidson, who is employed as a lineman for the electric light company, dropped a ten dollar bill on the stairs of the public library. He did not miss the money until he had walked up street to the operahouse. Miss Georgia McGovern found the money and as soon as she learned that Mr. Davidson had lost that amount word was sent to him. Upon satisfactory proof the money was returned to him and the finder was liberally rewarded for her honesty.

LESSONS OF THE LATE FLURRY

Had the Plan Succeeded There Is No Telling How Much Ruin Would Have Been Wrought.

[SPECIAL CORRESPONDENCE. No. 1252]

NEW YORK, May 17.—One week ago the hearts of our people were gladened by the announcement that in a few days peace would be assured and the sword would be beaten into the plowshare and the spear into the pruning hook, etc., etc. To be sure of my quotation being correct I wrote it on the cuff of my shirt along with the names of some people I would not willingly forget; they were considered rich with a fortune of $100,000, but such a man now would hardly be mentioned with common respect in connection with finance, and he is only spoken of on the north side of fiendliness.

If he has only a single million, though not exactly poor, he would not be considered rich, as riches go now. I was very well acquainted with a man who had five lovely daughters, whose father's fortune was carefully invested, producing an income of between $8,000 and $9,000 per annum

The dear creatures were most popular and were invited everywhere, but they could not go the swell parties, for, like Miss Flora McFlimsy, they had nothing to wear. "Where did the $9,000 income go to, I would like to know?" I think I hear you ask. Well I'll tell you, but mind, this is strictly confidential. Oh, sure!

Well, the rent of their house is $1,500 per year, Tom, the coachman, $40 per month, and board; put that down. Two servants, $30 per month; keep of two horses with repairs on coupe and medical attendance on horses, mending harness, $40 more; sending Tom and Jack to Harvard, $2,500.

"There, there, there! Stop, stop, stop!"

"Why, I haven't begun to live yet. Mother and I, Susan Hatty and Ethereli haven't yet had a fig leaf to put on, nor a mouthful to eat, nor do we know yet where is the money to pay the butcher, the baker and candlestick maker."

It may be the will of a gracious and benign Providence to send this way a millionaire from Klondike or an Argonaut from Cape Nome, whose plethoric sack is full to bursting or who for want of anything better to do, is looking about for a lovely, accomplished and affectionate wife, who would help him enjoy it, and I tell you my dear young man, he must be hard to suit if he could not find what he wants here.

We are settling with China. The claims of the united powers will amount to about $350,000,000. If China cannot pay, we will have to divide her up, as the Holy Alliance did Hungary and Poland. Each of the nations will take a part of the loot and cry quits.

We have just been passing through a week of most exciting character, which has shaken our financial structure from turret to foundation stone. It is a difficult thing to describe a panic in Wall street. There are other representative values beside gold and silver; you wheat, your cotton, your beef and the oils that light the world are the real values on which the structure is reared, but gold and silver, though you cannot eat or drink them and they afford your no shelter from the summer's heat or the winter's storm, are still the powers behind the throne, greater than the throne itself.

They are the objects which all men, civilized or savage, worship. "Plate sin with gold and the lance of justice hurtless breaks; clothe it in rags, a pigmy straw will pierce it." Fortunately, the country was rich and prosperous, money was abundant, although locked up, and the honesty of those who controlled our banks was never better displayed than during this tremendous financial tempest where honest men stood shoulder to shoulder braving financial disaster worse than death.

The plot of wholesale ruin and robbery was artfully laid four years ago. A great highway of the north which was built when we were seeking an outlet for our trade to China and Japan, had sunk almost to a state of bankruptcy. It became one of that class of stocks which stock brokers lay on one side in their safes and never never think of thereafter except to bolster up some thieving scheme with these rotten and worthless securities.

A few months in 1898 Northern Pacific was quoted at $2.50 with little or no buyers. Last week it was bulled to a $1,000. It we except a certain class that takes these false lights and await some scheme of plunder, such stocks are so cheap and worthless that their loss entails no inconvenience to a man of means but their rise to a very small figure is ample recompense to their holding. The Northern Pacific deal was engineered by a class of men whose financial vision is as sharp as a needle's point. Of honesty they have but little; sense of financial obligation, none at all. They are the jackals of finance, providing the rotten food for animals more powerful than themselves, but as base and fully as cowardly and mean.

It was not the cunning scheme of a week or a day or a month or a year that made this vile scheme such a terror. It needed patience, courage that could face ruin, the same kind that is the capital stock of robbers who en-

SAN FRANCISCO, May 17—Mrs. McKinley passed a good night and her condition is much improved. The physicians will not hold another consultation until eight o'clock tonight.

PARALYSIS OF THE HEART

Caused the Death of a Cambridge Child Who Was Visiting Here.

Miss Edith Hall, the six-year-old daughter of Mr. and Mrs. H. T. Hall, of Cambridge, died Thursday evening at the home of her grandmother, Mrs. Rushmeyer, on Sixth street.

The little one came to make a visit with her grandmother and was taken ill with throat trouble shortly after she came. At first it was thought this would prove fatal but extraordinary care and nursing placed her out of danger until Thursday, when paralysis of the heart attacked her proving fatal in a short time. Her parents came shortly after their daughter was first taken ill.

The body will be taken to the home in Cambridge today and funeral services will be held there Saturday.

Franchises Granted.

Two traction franchises have already been granted in this county, the one from Zanesville through Sonora, Adamsville and Otsego to the Zanesville, Adamsville & Coshocton company, and the other from Zanesville to Gratiot over the West Pike to Geo. K. Browning.—*Zanesville Times-Recorder.*

UNION LABEL

HANGS BY A THREAD

Life of Mrs. McKinley Sustained by Stimulants.

SLIGHT HOPES OF HER RECOVERY.

Should the End Come, the President and Party Will Leave Immediately For the East—All Public Functions Abandoned and Deep Gloom Prevails—Governor Nash Poisoned.

San Francisco, May 17.—Mrs. McKinley's life hangs by a thread. She has had no solid food since she reached here on Sunday, and the physicians do not believe she could survive another sinking spell such as she experienced Thursday. The new treatment for low vitality, salt injections into the veins, was administersd to Mrs. McKinley, and she responded to the treatment. She suffers little and bears up bravely. During her periods of consciousness her mind has been clear.

The president is constantly at her bedside, and though worn by the vigil, is standing the awful strain with remarkable fortitude. Every banquet and public function planned in his honor here has been abandoned, and the city, with heavy heart, is watching Mrs. McKinley's battle for life. If the end should come the president and his party will be ready to start back with the remains within 24 hours. The train which brought them here will be used on the return trip, and all the arrangements have been made to go back by the shortest route, the Central and Union Pacific to Chicago, and thence via the Pennsylvania to Washington. If Mrs. McKinley improves, it is not believed that she will be able to travel before a week from the coming Monday. All the cabinet, with the possible exception of Secretary Long, will remain here to the end. The latter's daughter is very ill at Colorado Springs, and he is very apprehensive that he may be called there at any time.

Story of Her Illness.

Mrs. McKinley's present attack of illness began shortly after she left El Paso. She had stood the trip remarkably well up to that time, with the exception of a slight period of depression during her stay at New Orleans. This, however, soon passed away, and she felt unusually well throughout the trip across the state of Texas until El Paso was reached. At that place a bone felon made its first appearance and proved very trying upon her nerves, as well as giving her much pain. The heat and dust of the long desert stretch through New Mexico and Arizona was a severe strain upon her strength.

Before Los Angeles was reached the felon had been once lanced by Dr. Rixey. At the latter place her illness was still further complicated by a severe attack of dysentery, and she had a very bad night at the residence of General Harrison Gray Otis. But she bore up bravely, and insisted, rather against the advice of the president and other members of the party, upon trying to fulfill the social obligations which fell upon her. The tax upon her strength was too great, and after leaving Los Angeles it became apparent to both Dr. Rixey and the president that Mrs. McKinley was a very sick woman. By the time Del Monte was reached she was in almost a complete state of collapse, and she was hurried to San Francisco.

Governor Nash Poisoned.

San Francisco, May 17.—The programs for the entertainment of Governor Nash and the Ohio visitors were declared off on account of the illness of Governor Nash. While attending the christening of one of the big trees in his honor near Santa Cruz, Monday last, he was poisoned with poison oak. He is partially blinded and suffered very much while addressing the Union League club Wednesday night. He is confined to his bed, and is attended constantly by a physician and nurses. While his affliction is not serious, it prevents him from participating in any of the functions that [illegible].

Sympathy Abroad.

London, May 17.—The morning papers refer editorially in terms of deepest sympathy to the illness of Mrs. McKinley, recalling the sympathy displayed by both the president and his wife when Queen Victoria died.

Brokers Assign.

New York, May 17. — Gustav Edward Graff and Thomas F. Nevins, composing the firm of G. Edward Graff & Company, stock and bond brokers, made an asignment for the benefit of their creditors. The firm was a member of the Consolidated Exchange and was caught in the recent squeeze. The liabilities are said to be about $300,000, with assets of $150,000.

Demand Eight Hours.

Butte, Mon., May 17.—The Mill and Smeltermen's union has made a demand for a general eight-hour day for all employes in and about the smelters, which has been refused by the Butte and Boston and Colorado mining companies. It is said that Senator Clark's company will also refuse to accede to the demands.

Prodigious Oil Charter.

Austin, Tex., May 17.—The largest oil charter ever incorporated under the laws of Texas was filed in the secretary's department. The charter is that of the J. M. Guffy Petroleum company of Beaumont, capital stock $15,000,000. It means a consolidation of the Guffy-Galey holdings, which are the most extensive in the Texas field.

No Further Orders.

Washington, May 17.—Late advices received by President O'Connell of the machinists' association indicate that above 25 per cent of the employing machinists throughout the country have agreed to the demands for shorter hours and increased pay. Contrary to an opinion which prevails in some quarters, President O'Connell says there has been no new orders issued from headquarters regarding Monday's big strike. He expects a general acquiescence in the order heretofore issued.

Naval Assignment.

Washington May 17.—Among the naval orders was that detaching Major Walter, United States marine corps, from service at Cavite and assigning him to Olongapo. It is not made known whether this is in connection with the reports from Manilla that friction exists among the marine officers at Cavite. The court of inquiry in progress there was ordered by Admiral Kempff, and the navy department officials have little knowledge of the trouble.

Saloonists' New Order.

Cincinnati, May 17.—The opposing faction of the Knights of Royal Arch, the national order of saloonkeepers, who bolted the convention and organized a new order under the name of "The Knights of Fidelity," effected a permanent organization. James Hay of Chicago was elected supreme valiant commander. Indianapolis was selected as the next meeting place for the convention of 1903.

Strike May Be Settled.

Albany, May 17.—Five hours of conference with all the warring elements represented failed to settle the Albany strike of street railway employes. The strikers waived all the demands for the removal of the nonunion men. The executive committee of the Union Traction company will consider the proposition and may accept it and settle the strike.

Platt Amendment.

ONCE UPON A TIME

There were no ready-to-wear clothes. A tailor traveled from house to house and made the garments for the male portion of the family, at least such ones as the mother could not make herself. The cloth was frequently made by the mothers and daughters on hand looms from wool grown on the farm. A slow process, wasn't it? The results were not particularly elegant.

There's as much difference now between STEIN-BLOCH READY-TO-WEAR CLOTHES and the ordinary "ready-made" as between garments made by a high-class tailor of today and those made by the antiquated methods of our ancestors.

A Travel Point
Pan-American Exposition

THE Pan-American, to be held at Buffalo, N. Y., May 1 to Nov. 1, will be one of the greatest and most beautiful expositions the world has known. To enjoy its beauties will be worth any effort. The question of traveling to and from Buffalo is one to be carefully considered. When you buy your ticket you will wish to feel satisfied that you have selected wisely. You will desire to travel by the route affording the most of comfort and interest. The return trip, too, must be considered, as after you have done the Exposition, Buffalo, Niagara Falls and vicinity, you'll be tired and wish to reach home quickly.

The Lake Shore
and Michigan Southern Railway

as the leading line to Buffalo by reason of the frequency and certainty of its service and through direct connections at Chicago, Toledo, Sandusky, Cleveland and other cities along its line will best meet every requirement in journeying to the Pan-American from the west, southwest and a greater part of south. Its service is the most complete and frequent of any line, and it is recognized as the most comfortable of American railways. The country traversed is the fairest and richest of the Middle States—the most interesting on the way to Buffalo. Our "Book of Trains" contains full information about Lake Shore service. Sent free on request. Look it through carefully.

The best riders sometimes meet with accidends. When you buy a wheel, keep that fact in mind. Buy a wheel that is strong, well made and able to stand the strain of the long, hard rides.

That's the kind of a wheel the Rambler, Record and Imperial are, and they are light, graceful easy running wheels, too.

Let us show them to you.

FIRED UPON THE MOB

But the Bullets Struck Several Innocent Bystanders.

MORE BLOOD SPILLED AT ALBANY.

Two Merchants and a Citizen Fatally Shot During a Clash Between the Militia and the Strikers' Sympathizers—Others Injured in a Charge. Efforts to Effect a Settlement.

Albany, May 17.—As the result of a volley fired by soldiers escorting a streetcar at a demonstrative crowd, three men, innocent spectators, were fatally shot, and several severely wounded. This act stirred anew the feeling of hatred against the troops, and the guards are bitterly denounced.

Those fatally wounded are William Welsh and Leroy Smith, merchants, both shot by national guardsmen, and William Marshall, a nonunion motorman, skull fractured. Others most seriously injured are: George Booze, citizen, cheek ripped open by bayonet; William Rooney, citizen, shot by national guard; Gilbert Hall, nonunion motorman, shot by mob.

Neither of the men had been guilty of an offense, but were caught in a crowd, some member of which had stoned the guardsmen, and by mischance were hit. The disturbance was not a serious one, and "murder" is the title applied by inflamed public sentiment to the shooting. The guardsmen seemed to have followed their duty as soldiers, for they were under orders to shoot if assaulted.

It was on the last run of the soldiers on the cars that the tragedy of the day occurred. The cars were on Broadway, moving northward, and a constantly swelling crowd was gathered about Union depot. The first of the workday folk had been released by the whistles that sounded through the manufacturing district, and they were pouring into the crowd. Near Columbia street a truck blocked the way of a car, and, urged on by the driver, refused to move on as speedily as desired. Some one in the crowd was very noisy and there was much confusion. The car finally moved forward into the next block and another stone was hurled at it. There was a sharp command, and as the car slowed down four shots were fired from it. Leroy Smith lounged on the steps of his store; William Walsh, his business neighbor from across the street, was his immediate companion, and a small crowd hung about near them.

It was into this crowd that the guards fired at a range of less than 20 feet. Smith and Walsh were both shot in the abdomen and fell where they stood. Walsh died a few hours afterward. A third man, William Rooney, was slightly hurt by a glancing bullet. Some of the guards stepped from the car and reloaded their pieces. The startled crowd fell back at the first shot and a moment later the guards sprang aboard the car and were rapidly wheeled from the scene. Smith and Walsh were hurried away to hospitals, and an angry crowd swarmed in the street to curse and denounce the guards.

Smith is a member of the shoe manufacturing firm of Smith & Herrick, and a citizen of wealth, respectability and prominence. He is a member of the Albany club and a whist expert of national reputation. He is 50 years of age and has a family. Walsh was the head of a plumbing house and well known in business circles. Neither man has taken any part other than as spectators in the demonstration that provoked the shooting.

Major General Roe intends to take every precaution, and ordered out the Ninth regiment of New York. It will arrive here this afternoon, 800 strong, and if the strike is not settled will assist in opening up the other lines of the traction company in this city.

Mitchell to Rest Up.

Indianapolis, May 17.—Mr. John Mitchell of the United Mine Workers is preparing to take a month's vacation. The nervous strain he has undergone during the last year in the settlement of strikes that were pending in the anthracite region and elsewhere make it necessary for a long rest. It was stated by W. B. Wilson, national secretary of the mine workers, that the affairs of the organization were never in better condition, and that the situation throughout the entire coal field is more satisfactory than it has been for a long time.

Cincinnati Machinists.

Cincinnati, May 17.—Several prominent labor leaders are expected here the latter part of this week to manage the affairs for the machinists throughout the country if they go on strike on Monday next. Not only Samuel Gompers and Thomas Kidd of the American Federation of Labor will take part in the struggle, but it is said that the best leaders from all the national unions of the east will be ordered to Cincinnati, from where the fight throughout the country will be managed.

Brotherhood of Trainmen.

Milwaukee, May 17.—W. T. Newman of Denver was elected fourth vice grand master of the Brotherhood of Trainmen. This is the new office created by an amendment to the constitution. The next biennial convention will be held in Denver.

Mine Closed.

Colorado Springs, May 17.—The Portland mine, employing 700 men, was closed indefinitely owing to trouble between the miners' unions over the employment of nonunion miners. It is not believed the trouble will spread to other mines in the Cripple Creek district.

MODERATORS

Elected by Presbyterian Assemblies. Southern Wing.

Little Rock, May 17.—One hundred and eighty-five commissioners were present when the retiring moderator, Judge Joseph W. Martin of Little Rock, called the forty-first session of the general assembly of the Presbyterian church in the United States, popularly known as the Southern Presbyterian church, to order. The stated clerk, Rev. W. A. Alexander of Clarkesville, Tenn., announced that there there had been no changes in the number or designation of presbyteries during the last year. Dr. Neander Woods of Memphis was elected moderator by acclamation.

General Assembly.

Philadelphia, May 17.—The Presbyterian general assembly disposed of two important matters. Rev. Henry Collin Minton, D. D., of San Anselmo, al., was elected moderator, and by an emphatic vote the assembly decided to accept the "Peoria plan" of choosing standing committees, though an effort was made to obviate the system. Rev. Dr. Minton's only opponent was Rev. George T. Purves, D. D., LL.D., of New York, and of the 612 votes cast Dr. Minton received 337 and Dr. Purves 276.

Fatal Hypnotism.

Woonsocket, R. I., May 17.—During an exhibition of hypnotism given by Professor Franke Farnsworth and wife of Fitchburg, at the opera house, one of the subjects, Thomas Bolton, also of Fitchburg, was killed. Mr. Bolton was resting between two chairs with a 600 pound stone on his body. A local blacksmith, Clifford Trask, attempted to break the stone with a sledgehammer. The chair on which Bolton's head rested gave way and the subject fell to the floor, the stone crushing his head. He died shortly after. Farnsworth and Trask were placed under arrest. Bolton had been traveling with Farnsworth as one of his subjects.

Ohio Municipal League.

Cleveland, May 17.—Mayor Johnson went before the League of Ohio Municipalities, in session here, and secured the appointment of a committee consisting of Ohio mayors to go before the state board of equalization for railroad property in this state. Officers were elected by the league as follows: President, Mayor Lindemuth of Dayton; vice president, Mayor Johnson of Urbana; secretary, Dr. S. O. Giffin of Columbus; treasurer, Mayor Orbison of Carthage; trustees, Mayor Cassidy of Bellefontaine, Mayor Williams of Niles and Mayor Linkhart of Xenia.

Boxing Bout Declared Off.

Oshkosh, Wis., May 17.—In deference to the mandate of Governor Lafollette the boxing contest scheduled to take place between Jack Root of Chicago and "Kid" Carter of Brooklyn was declared off by Manager Moore of the Oshkosh Athletic club. The governor notified the local authorities that the fight should not take place, and that he had sent Adjutant General A. R. Boardman and Attorney General E. H. Hicks to Oshkosh to see that his orders were carried out.

New Zealand Wants In.

Vancouver, B. C., May 17.—Australian papers received here represent New Zealand as seriously considering an application to join the Australian Confederation. A New Zealand federal commission has been traveling through the federal states, in each of which the feeling was strongly favorable to New Zealand entering the commonwealth. The commission has prepared a report favorable to the project, which will be submitted to the New Zealand parliament.

Smallpox in a Convent.

Detroit, May 17.—Fifteen cases of smallpox were discovered in St. Francis Polish convent on St. Aubin avenue, and the entire institution has been quarantined by the board of health. There are 100 children and 30 nuns in the convent. The victims have the discase in a mild form, and no deaths are expected.

Grist Mills Burned.

Birmingham, Ala., May 17.—A disastrous fire visited Talladega, destroying the Talladega grist mills and partially consuming building and stock of the Talladega Mercantile company. The loss is estimated at $60,000, with about $35,000 insurance.

A STRENGTHENER

Vinol Promptly Overcomes Weakness.

DEBILITY OFTEN PRECEDES COMPLETE COLLAPSE.

We Want Every One to Know How to Get Strong.

OUR VINOL IS A STRENGTH CREATOR.

The saddest sight on earth is a broken-down man or woman.

We see such people every day right here in our city.

It is pitiful to see a man that should be in his prime dragging himself through life dejected, discouraged and broken down, due to some premature weakness. It does not make any difference whether this weakness is the result of dissipation, indiscreet living or disease; it can be overcome.

We have known of many very serious cases of debility quickly overcome by Vinol.

Vinol is a scientific rebuilder and strength creator. It contains the active curative principles of Cod-Liver Oil in a highly concentrated form. The benefit that can be derived from the use of these properties is so well known that there is no need for us to enter into that subject.

We could quote many instances where Vinol has done good; as an example, here is one coming from Jane S. Fenfren, a prominent member of the W. C. T. U., and a resident of Suncook, N. H. She writes:

"I was run down, was in bed from May to March. Was so nervous and sickly that every one thought I was in a most precarious condition. My weight was reduced to 120 pounds. I was advised to take Vinol, which I did, and am now very much better, and am able to be about again. As a rebuilder and a strength giver nothing can equal it. Vinol is a God-blessing to anybody."

Because Vinol is delicious, and because it does contain these much-sought-after medicinal properties we endorse it, and we unhesitatingly proclaim that it is better than any preparation of cod-liver oil or tonic rebuilder we have ever had in our store.

WALL STREET WAYS.

(Continued from First Page.)

stiff railroad trains in the night and murder men and women on the highway. Now that the danger is past and our feet once more on solid financial ground and we contemplate the ruin that would have occurred if the plan had succeeded, the mere review of those who escaped that disaster of that perilous hour is appalling.

Well may the honest banker, merchant and mechanic, who have accumulated sufficient of material wealth to give him the comforts which his age required, on reaching home that night, if he escaped the ruin of the day, kiss the little children that gathered around his chair to hear the story of that dreadful storm, and clasp his wife more fondly to his heart for she it was who has shared with him the sunshine and the storm and whose love never failed though the hair turned silver and the eye grew dim; the old man's quivering lip and moistened eye were more eloquent than words still with reverence he exclaimed: "Thank God, thank God, my dar lings, that we have tonight above our heads a roof that we can call our own."

There are some phases of that horrible disaster which are awful to think of. There were many men in New York that day who in the morning were financially sound, who, when the sun went down in gloom that night, were left without the means to buy lodging or supper. Woe, woe, unto the thieves who engineered that sad disaster. They were thieves whose infamy will follow them till the Archangel's trumpet shall summon to judgment the quick and the dead.

The loss, great as it was and is, is bad enough, but would the condition have been if the plot had succeeded can never be known. Black Friday stands on the calendar of finance as a day accursed in its history. Many financial giants of rare fortune and great experience then went under in that terrible tempest and were never seen again or heard of.

Two men whose names are still remembered on the greatest money mart in the world have crossed the silent river, but their infamy is not forgotten. Jim Fiske fell by the assassin's bullet; Jay Gould died worth over $75,000,000, leaving $18,000,000 to each of his children, giving with each an annual income of $800,000. Anne, the most extravagant daughter, was thrown into bankruptcy and committed by a Paris court to the guardianship of her brother George. Strange to tell his eldest daughter, Helen, became a guardian angel among the poor, loved, respected and honored wherever her name is known.

The Filipino monks are petitioning the Pope to keep Irish and American priests away from Manila. They don't want them. If there is any principle stronger than another in the organization and government of the Roman Catholic church it is in its universality, its unalterable fixedness and its unchangeable ritual, which has known but little material alteration since the departing Christ delivered the keys to St. Peter, who was to be the corner stone and the rock on which was to be reared the magnificent temple, whose light today shines with splendor throughout the world. From St. Peter to the thirteenth Leo, it has passed through an ordeal of nearly twenty centuries. It has seen great monarchs hold the stirrups of their horses for mighty pontiffs to mount; it has received the homage due almost to a deity, whose representative he was on earth. The territory over which he presided was small and insignificant in comparison to his spiritual domain.

The power he holds is not marked by armed lictors to defend his throne, but since the consolidation of the kingdom of Italy his temporal domain has been torn from him and he now occupies no foot of land that he can call his own except those within the walls of the Vatican. Even here he feels himself insecure. Little wonder, then, that some of his friends, looking out for his security, safety and comfort, have thought of raising a palace in a genial clime, with domain sufficient for temporal and spiritual rule. He has to do with the hearts and souls of men; he himself is answerable to no one but God, and is believed by his followers to be the purest representative on earth of the Almighty. I spoke of the magnificent house Mrs. Eugene Kelly is building as an asylum for the Pope.

What can a widow not young want of three magnificent homes—one in New York, one in San Francisco and one in Mexico—fully stocked and all ready for instant service. Eugene Kelly is but the man, the upright Christian gentleman—God's almoner is not and will not be forgotten.

The investment of another baretta, or the cardinal's hat, has at this time a special interest to the Roman Catholics of the United States, whether he fixes his home in the Himalayas or continues to reside in Rome, consecrated by nineteen hundred years of devotion, love and tears, he would find his children strong and happy there, where a new home and a generous welcome await him.

BY A BIG MAJORITY

House of Commons Adopts the Brodrick Army Scheme.

SPICY SPEECHES BEFORE THE VOTE.

Intimations That the Interests of the British Empire Are Committed to a Light-Hearted Crew—Another Expedition Against the Boxers—Other Foreign Intelligence.

London, May 17.—In winding up the debate on the army bill in the house of commons Mr. A. J. Balfour, the government leader, denied that there was any large body of opinion hostile to the scheme of Mr. Brodrick, the secretary of state for war. The amendment of Sir Henry Campbell-Bannerman, the Liberal leader, in which he said the proposals largely increased the existing burdens without adding substantially to the military strength of Great Britain and asked for figures and definite statements, was rejected by a vote of 327 to 211. Mr. Brodrick's scheme was then adopted by a vote of 305 to 163.

In the course of his speech Mr. Balfour made the sensational statement that, at one moment toward the end of 1899, there were in Great Britain only 3,300 rounds of small arm ammunition, with no reserve of artillery ammunition, except what was actually with the guns retained at home. Mr. Balfour made the revelation in an attempt to fasten on the Liberals negligence in the matter of military supplies.

The Liberal papers seize upon Mr. Balfour's sensational statement in the house, referring to it as "an amazing indiscretion." The Daily News says: "This shows how near to ruin Mr. Chamberlain and his colleagues brought the country." "To such light-hearted gentlemen," exclaims The Daily Chronicle, "are the interests of a great empire committed."

The government's immense majority for Mr. Brodrick's scheme is not regarded as representing the opinion of the house of commons. There was no cross voting, but Mr. Winston Churchill and a few other Unionists abstained from voting.

What It Means.

Liverpool, May 17.—At the meeting of the Liverpool chamber of commerce Mr. Alfred Jones, president of the chamber, who is also head of the firm of Elder, Dempster & Company, said: "It is much better for the Americans to buy ships here than to build them for themselves, and nobody can blame Englishmen for accepting American dollars; but there is an element of great danger in this transfer, because it means a combination between the American railways and seacarrying facilities. We must realize that the United States intend, so far as possible, to make themselves the manufacturers for the world."

To Broaden the Gauge.

City of Mexico, May 17.—It is reported on excellent authority that the national railroad between this city and Laredo will begin to broaden the gauge, making the road a standard gauge, which has long been a cherished idea of President Raoul. The recent changes and appointments of officials are said to be with a view to making the national road a standard gauge so as to avoid the trans-shipment of passengers and freight on the Texas border.

Another Expedition.

London, May 17.—Dr. Morrison, wiring to The Times from Peking, says: "The German staff have notified the allies of their intention to send another expedition to suppress "Boxers" in the southern part of the province of Chi Li, beyond Ching Ching, and have invited the co-operation of the allies. The departure of French troops has been countermanded."

Strike Riots.

St. Petersburg, May 17.—Strike riots have occurred in the cotton mills on the Vlboy side of the Neva. It is reported that many have been killed.

French Ambassador at Chicago.

Chicago, May 17. — Jules M. Cambon, the French ambassador to the United States, was the guest of Chicago for a day and was the central figure in a series of receptions and feasts. M. Cambon came to the city to officially recognize in behalf of the republic of France the union of the Alliance Francaise with the University of Chicago. The alliance's purpose is to increase the use and study of the French language.

Torpedo Boat Bagley.

Bath, Me., May 17. — The torpedo boat Bagley was given an official trial run of two hours at sea and her performance was even better than that of the Barney, her average time over the entire course being 29.2 knots. In the last hour she made 30 knots and for a period of five minutes she attained a speed of 30.2. The contract speed is 28 knots.

Bridge Across the Ohio.

Washington, May 17. — The secretary of war has approved a recommendation of the chief of the engineers for the proposed plan of a railroad bridge across the Ohio river from Bellaire, O., to Benwood, W. Va. The span is to be 700 feet long at mid-channel.

The New Standard of Wealth.

The present record price for a seat in the New York Stock Exchange is $70,000. There was a time when that amount would have been considered a snug fortune, but now it is just enough for a ticket that will admit a man inside the ropes, where he hopes he can commence making a little money.—Boston Herald.

SEVENTH STREET NEXT

To Be Paved This Summer According to Indications.

PETITION ALMOST UNIVERSAL

Two Blocks Between Chestnut and Walnut Not Included in the Petition.

The petition for the paving of Seventh street will be formally presented to council at the meeting Tuesday evening and if signatures and representation of frontage count for anything Seventh street will be paved before the county fair.

The movement has met with unusual success, and out of a frontage of 3044 feet signatures representing 2600 feet have been secured. Only six names yet remain to be placed on the petition to make it universal. It is the opinion of those who have the petition in charge that part of these remaining six will sign the petition before it goes to council.

The promoters of the movement have worked faithfully and deserve credit for the result. It will be more nearly a unanimous paving petition than was ever presented to council. The petition is now in charge of J. B. Manner. It asks for a pavement from Walnut street to the fairground gate.

A serious objection to the proposition that will undoubtedly be raised is the fact that it runs north only as far as Walnut street, instead of connecting with Main and Chestnut which have already been paved. The great necessity is realized for paving the cross streets so that Main, Walnut and Chestnut may be kept clean; and when it is now proposed to pave the cross streets all except where they cross the streets that are now paved, the petitioners will undoubtedly be requested to revise their proposition so as to include the whole thing.

The Cherry street petition will also be presented at this meeting if it can be gotten ready. It lacks a few signatures yet to make it represent two-thirds of the foot-frontage. These signatures, it is thought, will be easily secured.

RIGHT AT HOME.

Town Topics and All Kinds of Local Happenings Told in Brief.

—The Gray Hardware Company.

—A baby girl was born to Mr. and Mrs. Charles G. Smith Friday morning.

—The board of education will hold a meeting this evening to consider matters pertaining to the proposed new school buildings.

—Millersburg has let the contract for the paving of three streets at a cost of about $29,000. J. N. Kissner was one of the bidders but was slightly underbid.

—Now that the baseball fever is on in the city the bartenders have issued a challenge to the clerks for a game to be played on a date to be decided when the challenge is accepted.

—Miss Rosa Howard, of this city, and Clem W. Knauss, of Franklin township, were united in marriage by Rev. S. A. Fisher at their home No. 835 South Seventh, Thursday evening.

THIRTY-TWO DROWNED

When the Steamer Federal Foundered Off the Australian Coast.

Victoria, B. C., May 17.—News has been received by the steamer Moana of the loss of the steamer Federal on the Australian coast during a heavy gale. Thirty-two persons perished with her. Six bodies were recovered with a boat, but no other wreckage was found, and it was believed that the vessel foundered near the coast. When the bodies were found dinges were eating them and were driven away with difficulty. The bodies were badly mangled by the wild dogs and only a few were identified, including Captain Coult and Engineer Hills.

Answer of Mayor Wells.

St. Louis, May 17.—Mayor Wells, through his lawyers, filed his answer to the contest instituted to determine his right to the mayoralty by George W. Parker, the defeated Republican candidate. He also filed an answer to a similar suit instituted by Lee Meriwether, the candidate of the Municipal Ownership party. In answer to the Parker suit Mayor Wells denies each and every allegation. He declares that the count of the ballots by the board of election commissioners shows that he received 43,167 votes to 24,938 cast for Mr. Parker. He further declares that a large number of votes were illegally cast for Mr. Parker, and submits a list of these alleged illegal voters.

Mr. Wu Nominated For Emperor.

Why not make Minister Wu emperor of China? He talks well and appears to know, says the Mexican Herald, how to combine the best in Chinese conservatism and western progress.

Very Fruitful.

Since last October 2,000,000 fruit trees have been planted in Georgia. Evidently California, says the San Francisco Chronicle, will have to count that state as a rival in future.

BY SCHOOLMATES

A Tot of Seven Is Beaten to Death. The Cause.

Harbor Beach, Mich., May 17.—Blanche Reynolds, 7, is dead as the result of a beating administered to her by young schoolmates, who are said to have been angry because her parents had forbidden Blanche to play with them. Her 9-year-old brother was assaulted the day following the assault on Blanche, and Hattie Harriman, 14, is under arrest charged with assault and battery on the boy.

A Warm Number.

Dublin, May 17.—"The Irish People," Mr. William O'Brien's paper, contains a nine-column attack on Mr. Wyndham, the Irish secretary, for the recent seizure of the paper because of its insulting references to King Edward. The general policy of Mr. Wyndham is also assailed. "Villainy," "treachery," "hypocrisy" and "mendacity" are frequently used in reference to Mr. Wyndham, who, in conclusion, is called "a liar, sneak and backbiter."

Extortioner Decoyed.

St. Joseph, Mo., May 17.—Thomas Ashton, a wealthy stockman living south of this city, received several letters threatening himself, his home and family with destruction unless he deposited $12,000 in gold at a designated spot. Detectives watched a decoy placed at the spot and captured the writer, who proved to be William Plaum, 23, a farmer, who confessed that he got the idea from the Cudahy case in Omaha.

Railway Annual.

Cleveland, May 17.—The annual meeting of the stockholders of the Cleveland and Pittsburg road was held here. The only business transacted was the election of a board of directors. The only change from last year's directorate was the election of Frank J. Jones of Cincinnati to succeed E. A. Ferguson of Cincinnati, who declined a re-election.

Kentucky Knights Templar.

Lexington, Ky., May 17.—The fifty-fourth annual conclave of the grand commandery of the Kentucky Knights Templar have concluded their official labors. John Grubbs Ornderff of Russellville was elected past grand commander. The place for the next meeting has not been decided on yet, but will likely be at Louisville.

A Police Reporter and Why.

Every once in awhile I am asked why I became a newspaper man. For one thing, because there were writers of such trash who, themselves comfortably lodged have not red blood enough in their veins to feel for those to whom everything is denied and not sense enough to make out the facts when they see them, or they would not call playgrounds, schoolhouses and better tenements "abortive measures." Some one had to tell the facts. That is one reason why I became a reporter.

And I am going to stay one until the last of that ilk has ceased to discourage men from trying to help their fellows by the shortest cut they can find, whether it fits in a theory or not. I don't care two pins for all the social theories that were ever made unless they helped to make better men and women by bettering their lot. I have had cranks of that order who, rated as sensible beings in the ordinary affairs of life, tell me that I was doing harm rather than good by helping improve the lot of the poor; it delayed the final day of justice we were waiting for. Not I. I don't propose to wait an hour for it if I can help bring it on, and I know it can.—Jacob A. Riis in Outlook.

Visit Winona Lake.

Winona Lake, Ind., on the Pennsylvania lines, is an attractive summer haven for persons who desire to combine devotion, entertainment and instruction with rest and recreation. This resort is the site of Winona Assembly and Summer School, and is annually visited by many persons who are strengthened in mind by the excellent facilities for educational work and invigorated in body by the health giving influences for which Winona lake is famous.

The season of 1901 will open May 15. Commencing on that date excursion tickets with 15 day limit will be on sale via Pennsylvania lines. They may be obtained during May, June, July and August. The sale of season excursion tickets will also begin May 15 and continue daily until September 14. Excursion tickets will be good returning until September 17.

Full information about the attractions at "Beautiful Winona," its assembly and summer school, etc., will be cheerfully furnished all who address Sol C. Dickey, secretary, Winona Lake, Ind. Inquiries about excursion rates, time of trains, etc., should be addressed to passenger and ticket agents of the Pennsylvania lines, or to F. Van Dusen, chief assistant general passenger agent, Pittsburg, Pa.
